ABOUT ME

I am a software engineer with more than 3 years of experience. Since the beginning of my programming journey, I have been focusing on expanding my knowledge and abilities in software development, programming and quality assurance with a special emphasis in web technologies. I frequently use popular web technologies including, but not limited to, **HTML5**, **CSS**, **Bootstrap**, **JavaScript**, **PHP**, **Node.js**, **React**, **Redux**, **Next**.**js**, **Firebase**. By various internships that I have made, I am always trying to excel my communication and organizational abilities with resourceful approach to solving diverse problems.

WORK EXPERIENCE

Full Stack Engineer Intern
BCS-IT GmbH [01/06/2021 – 01/10/2021]

Location: Langenfeld, Germany

- SaleVali Integrated Multi-Channel E-Commerce Web application.
- Successfully generated front-end programming utilizing **HTML5, CSS, Bootstrap, JavaScript, React, Redux-Saga, Formik, npm,** and various other third-party libraries.
- Designed and implemented back-end system using a variety of programming languages and web technologies including: **Node.js, PHP, Loopback, MongoDB, RESTful API**.
- Integrated several software to the development process using **Agile** methodology (**Scrum**): **Git, Gitflow, Bitbucket,** and **Jira**.
- Attended daily **Scrum** meetings, **Sprint planning and reviews**, communicated with other developers and managers, come up with creative solutions.
- Developed, maintained, and tested React-based complex and large web applications.

Supervisor Feedback: Omer was a successful, all-round trainee that made significant contributions to his projects. He has featly completed the required assignments on a timely manner, and helped the team to carry the project to the next level. Having demonstrated the required skills to get promoted to a Full Stack Web Developer position, he was meticulous and determined to accomplish his goals. It was a great pleasure for me and the other team members to work with him. I would recommend Omer to every passionate team that is looking towards a fresh web developer with extensive experience.

Software Engineer Intern
Mibgate GmbH [01/07/2020 – 01/10/2020]

Location: Düsseldorf, Germany

- Used development tools **HTML5, CSS, Bootstrap, JavaScript, React**, **TypeScript**, and
- **Node.js** on regular basis.
- Supported software engineering projects in **Agile** work environment
- Handled scripting tasks for debugging and automation using **Cypress**.
- Collaborated with product team members to implement new feature developments.
- Partnered with company mentor to learn **best practices** in software design.

Supervisor Feedback: Our intern Bahadır Omer Cakmak worked based on Web development. He used recent and industry wide technologies that are popularly used in the software engineering and web development community thoroughly. He has expanded his programming skills by working hard daily on real life programming challenges. He has given various speeches at the daily meeting, which has improved his public speaking and communication skills.

- Professional specialization on **Web Technologies Engineering**.
- Member of Computer Engineering Club.
- **Mentor** in the university's mentoring program.

English Language Preparatory Program
Cankaya University [01/09/2017 – 01/06/2018]

High School Diploma
Acı High School

PROJECTS

SaleVali

[06/2021 – 10/2021]

SaleVali is **React-based** web application that aims to integrate various E-Commerce and Shipping platforms, in a single page web application. The main goal of the application is to have a single, user-friendly environment for online-retailers, resolving the hassle and complexity of selling products, managing invoice, checking stocks, and tracking customers, in a variety of platforms.

Ahsen

[09/2020 – 06/2021]

Ahsen is an **Order Management System (OMS)** for wholesaler. An order management system (OMS) is a digital way to manage the lifecycle of an order. It tracks all the information and processes, including order entry, inventory management, fulfillment and after-sales service. An OMS offers visibility to both the business and the buyer. Organizations can have near real-time insight into inventories and customers can check when an order will arrive.

COVID-19 Tracker

[05/2020 – 06/2020]

This project created for to draw attention to COVID-19 and make the world better and healthier.

- I have many more projects. You can access my projects on my [Personal Website](#) or [GitHub account](#).

SKILLS

Software Engineering & Full Stack Web Development

HTML - CSS - Sass - Responsive Design - Bootstrap - JavaScript - PHP - Python - TypeScript - npm - Node.js - React - Next.js - Redux - React Router - Material-UI - Express.js - Asynchronous Programming - Firebase - MongoDB - MySQL - Git - Gitflow Workflow - GitHub - Bitbucket - Agile - Scrum - Jira

Social Media & E-Commerce

Microsoft Office 365 - Wordpress - Shopify - BigCommerce - Google Ads - Adobe Photoshop - Adobe Premiere Pro - Final Cut Pro - DaVinci Resolve - Canva

Soft Skills

Problem Solving - Critical Thinking - Communication - Teamwork - Creativity - Time Management - Visual Thinking - Work Ethics - Adaptability

HOBBIES AND INTERESTS

Table Tennis

I played professional table tennis for 2 years. I have 1 city championship in table tennis. I'm just playing as a hobby right now.

Hiking

As a software engineer, we can stay still for a long time because we spend so much time on the computer. Therefore, it is a very good hobby to Hiking regularly

VOLUNTEERING

Volunteer to Plant Trees

Life couldn't exist without trees. Currently, the world faces the challenges of climate change and wildlife preservation, along with having to support billions of people. We need solutions. And trees could hold the answer.
